

KELLTON TECH

Our Digital Transformation Solutions

Empower disruptive growth and turn businesses into the 'Digital Connected Enterprises' of tomorrow. By shaping the digital journeys of clients, we revolutionize the way they do business, transform customer interactions, and make a real-world impact. We have the right vision, strategy, and expertise to harness the full potential of today's technologies and define roadmaps that help our clients navigate to their 'connected' state.

We help you:

- Transform your traditional business and operating models with new-age technologies
- Build a unified platform by integrating disruptive technologies to facilitate innovation
- Accelerate top-line growth with our scalable omnichannel commerce solutions
- Run your business live with our end-to-end enterprise solutions
- Bring innovation to life through our agile outsourced product development services

Kellton Tech's Digital Services span across 4 major pillars:

Digital Transformation

Kellton Tech is a global force in delivering unprecedented levels of business agility and synergy through the power of disruptive technologies like Internet of Things, Mobility, Analytics, Cloud, Artificial Intelligence, Big Data, Chatbots, Virtual Reality and Blockchain, among others.

Key Services:

- Define digital transformation roadmaps
- Translate roadmaps to solutions in an agile and iterative manner
- Modernize existing business models to step up innovation across products, services, and experiences
- Advise companies on greenfield and brownfield digital transformation implementation approaches

Digital Integration

Kellton Tech offers best-in-class integration solutions, enabling organizations to realize successful Digital Transformations. Our solutions help modernize existing IT systems and build digital strategies for the future using the latest advances in technology such as APIs, Blockchain, BPM, Cloud, DevOps-CI/CD, SOA, ESB, Mobile, Messaging, B2B, MFT, Analytics, AI, Robotic Process Automation(RPA), IoT, and more.

Key Services:

- Simplify your Cloud, on-premise, and hybrid integration scenarios
- Automate the process of continuous integration and continuous delivery through DevOps
- Develop your API management strategy to enable multi-speed IT
- Demystify the concept of Big Data and realize the true benefits of analytics and data science

Digital Enterprise

As a certified SAP Gold partner, Kellton Tech leverages SAP to give your business an edge in the digital economy. Our core SAP competencies include digital enterprise planning and execution, web and mobile commerce, cloud, analytics, Internet of Things (IoT), and more. We help you stay ahead of the trends that are driving the shift to digitalization.

Key Services:

- SAP S/4HANA delivery capabilities
- System Landscape Optimization (SLO) services
- SAP Partner Center of Expertise (PCoE) certified solutions support & management
- Design, build, and run SAP Fiori UX custom applications
- Design your retail digital strategy with PIM and MDM solutions
- Provide expert advice, tools, and methodology across the SAP C/4HANA platform

Outsourced Product Development

Kellton Tech provides end-to-end offshore product development services to various clients, from start-ups to established enterprises, across a multitude of industries. We use proven agile methodology to accelerate the development cycle of products from ideation to architecture, implementation, and deployment.

Key Services:

- Product engineering services
- QA and testing
- System architecture design
- Migration and Porting
- Performance engineering
- Sustenance and support
